About Me

Passionate developer with a keep interest in full-stack development, interactive web experiences, and performance optimization. Experienced in building scalable applications using React and Next.js, with a focus on backend development, system architecture, and networking. Enthusiastic about UI/UX design, 3D web interactions, and real-time data processing. Continuously exploring new technologies to create seamless, efficient, and user-friendly digital solutions.

Skills

- **Technical:** C, Python, Linux
- **Web:** Next.js, ReactJs
- **Soft Skills:** Problem-Solving, Creativity, Adaptability, Self-Learning, Project Management, Curiosity.
- **Languages:** English (Fluent), Hindi (Fluent)

Projects

The Tasty Trails

March 2025

- A personal project built with React.js, featuring a functional chatbot powered by Google Generative AI.
- The website showcases over 150 recipes with interactive recipe cards, step-by-step instructions, and a responsive design for seamless user experience.
- GitHub Repo: github.com/itzbhoomi/thetastytrails.
- Deployed on Vercel: thetastytrails.vercel.app.

Chhapo – Print and Deliver Platform

July 2025

- A full-stack print-on-demand platform built using Next.js, Tailwind CSS, and PrismaDB, allowing users to upload documents and customize print options like color, paper type, binding, and lamination.
- Includes modules for basic print, business cards, brochures, and themed gift cards with real-time previews and dynamic pricing based on quantity, delivery charges, and add-ons.
- Developed a modern, intuitive UI with custom validations and user-friendly flows for placing and tracking orders.
- GitHub Repo: github.com/itzbhoomi/chhapo.
- Deployed on Vercel: chhapo.vercel.app.

Hobbies

- Painting and making DIY projects.
- Reading personal development, finance, and fiction books.
- Solving puzzles and tricky problems
